Profile

- I build modern and user-friendly interfaces with good performance.
- I have experience with both frontend and backend. I worked on web and mobile projects using Next.js, React, React Native, and TypeScript.
- I took part in all steps of product development — from design to publishing and performance improvements.
- I have experience with user login systems (Auth), SSR/SSG, accessibility, and web performance.
- I also know the basics of AI integrations.
- On the backend, I used Node.js and NestJS. I built RESTful APIs and GraphQL services.
- I used Docker, PostgreSQL, Supabase, WebSocket, and AWS to build secure and scalable apps.
- I also work with C# and ASP.NET Core Web API to improve my backend skills.
- I published a mobile app with subscriptions on the App Store and Play Store.
- I enjoy solving problems, working with teams, and learning new things.

Skills: Web Development, Web Design, Front-End Development, Back-End Development, Mobile Design, Mobile Development, Real-Time Communication, DevOps, Database Management

Tools: HTML, CSS, Javascript, Python, React, Next.js, React Native, Git, Styled Components, Framer Motion, Tailwindcss, Bootstrap, Material UI, Shadcn, lottie, Redux, React Query, NodeJS, NestJS, Rest Api, Graphql, Typescript, Docker, Postman, Vite, Zustand, FastAPI, Supabase, Formik, Yup, WebSocket, Firebase, AWS, JWT Token, MongoDB, Sanity.io, RevenueCat

---

Projects

Bluesky (Open Source)

https://bsky.app/

An open-source social media app started by Jack Dorsey (ex-CEO of Twitter).
I found and reported a mobile UI issue related to text overflow caused by translations. I shared a solution on GitHub.

Skills: Front-End Development, Mobile Design, Mobile Development

Tools: HTML, CSS, Nextjs, Git, Tailwind, Javascript, Typescript, SSR, SSG

Byte (Open Source)

https://github.com/emirtetik/byte

An AI-based VS Code extension that helps with writing, reading, and editing code.
I integrated the DeepSeek AI system into the extension.

Skills: Front-End Development

Tools: HTML, CSS, Git, Javascript, Typescript, Restful Api

Taxigig

A startup project I worked on with a company. I shared some of the rights and helped build the app from scratch.

Skills: Web Development, Web Design, Front-End Development, Back-End Development, Mobile Design, Mobile Development, Database Management, Real-Time Communication

Tools: HTML, CSS, React Native, Git, Tailwind, Restful Api, Javascript, Typescript, WebSocket, JWT Token, Google Maps, PostgreSQL, i18next, Push Notification, Tanstack Query, OneSignal, Nest.js, RTK Query

Tetrig

https://tetrig.com/

A subscription-based mobile app that I built alone and published on App Store and Play Store.
I managed development, publishing, and sales myself.
Now I'm in talks with a software company for partnership.

Skills: Web Development, Web Design, Front-End Development, Back-End Development, Mobile Design, Mobile Development, Database Management, Real-Time Communication

Tools: HTML, CSS, React Native, Git, Tailwind, Restful Api, Graphql, Javascript, Typescript, WebSocket, JWT Token, PostgreSQL, Nest.js, RTK Query

Bileton

https://bileton.vercel.app/

Bileton is a bootcamp project developed under my leadership. It is designed as a ticket sales website and includes Frontend, Backend, and an Admin Panel. Through this project, I learned the importance of efficient teamwork and guiding people in the right way.

Skills: Web Development, Web Design, Front-End Development, Back-End Development

Tools: HTML, CSS, React.js, Git, Tailwind, Rest Api, Javascript, Typescript, Node.js, Express.js

---

Experience

Voxnet Hosting - 2022
Volunteer Intern

I learned how servers work, how websites are deployed, and how a browser request is handled by the server.
This helped me understand the basics and build my own projects later.

Oppenza - 2025 - 2025
Frontend Developer

I work as a mid-level frontend developer. I use Next.js to build responsive user interfaces from Figma designs.
I test APIs with Postman and connect them to the frontend.
We work with Agile and Scrum methods and manage tasks using Jira.
I focus on clean code and performance in every project.

Education

Kocaeli University, Kocaeli, (2017/2023)

English : B2 (Prep School completed, 30% of university education in English)

Techcareer Mid level Front-End Bootcamp, (2023/2024)
I improved my frontend and backend skills, especially in JavaScript, React, and Node.js.
I worked as a team leader in the final project.

Certificates

- **Beyond the Basics:** Mid-Level Front-End Bootcam**p**
- **Turkcell** | Geleceği yazanlar React 301
- **FreeCodeCamp** | FrontEnd Development Libraries
- **Patika Dev |** React Native
